

# Ohio Innovation Exchange

CONNECTING OHIO'S ACADEMIC EXPERTS WITH BUSINESS & INDUSTRY

The Ohio Innovation Exchange (OIEx) provides a powerful centralized web portal that consolidates research information across multiple Ohio universities. OIEx promotes faculty experts, equipment, intellectual property and other resources to a larger industry base, making it easier for businesses to find and partner with the state's leading researchers. By enhancing faculty visibility, OIEx introduces new paths for research funding and creates opportunities for collaboration outside of the traditional university setting.

## CONNECT & COLLABORATE

OIEx offers an efficient way for faculty researchers and business professionals to access specific expertise and resources.

OIEx also benefits faculty by:

- Providing an inclusive profile where publications and external links can be highlighted
- Broadening reach and increasing impact with additional research access points
- Finding connections and potential collaborations throughout the state
- Encouraging student internships and capstone research projects
- Providing an additional channel for you to raise the visibility of your work, promote its relevance and explore new channels of application

## FIND UNIVERSITY RESOURCES

Six partner universities\*

- Case Western Reserve University
- Cleveland State University
- Ohio University
- The Ohio State University
- University of Akron
- University of Cincinnati

More than 10,000 STEM-focused faculty

Over 2,500 research instruments/equipment, databases, software and services

900 featured university-based patents

\*OIEx is sponsored by the Department of Higher Education. The eventual goal is to showcase all Ohio universities.

OIEx offers businesses access to research faculty through email or through a team of university liaisons that provides guidance and triage of inquiries

## **EASILY ACCESS INFORMATION**

OIEx provides easy access to information in the public domain, including three key categories of information: university directory information; faculty, publications, grants and intellectual property; and shareable university equipment, technologies and research services, in the following areas:

- Biomedical sciences
- Natural & physical sciences
- Engineering
- Technology
- Mathematics

## **OIEX VISION**

The vision for the Ohio Innovation Exchange is to enhance access to information and strengthen human networking across sectors — universities, business, government and economic development agencies — to seed partnerships for researchers, expand workforce opportunities for students and foster economic development for industry sectors.
